

What is Family Experience?

We want our Cornerstone Kids Families to come together for a **unique, interactive family experience** that we pray will bring you closer together as a family, and more importantly closer to God! This is not a “sermon” - both parents and children will be asked to participate in some way at a variety of interactive stations.

Why sign up for Family Experience?

Parenting is hard. It can feel like basic survival some days. So trying to throw in parenting spiritually in an intentional way can feel next to impossible. We get it- we are in the trenches with you in our own homes. So it's our desire to walk alongside you in this parenting journey. This experience will guide you in how to remember God's provision, even in the midst of the deepest of trials. It will explain what forgiveness is- how God forgives us and how to extend that forgiveness to others. It will explain Communion and why we still do it today. You will learn how to hear God's voice daily, and how to teach your children to do the same. We will show you how to convey God's hope, why and how to praise God, and how to empower your family with the knowledge of God's protection. And the best part? The experience will not end on September 8. You will go home with multiple ways to extend this incredible experience into the weeks and months ahead.

You are not navigating this parenting journey alone. Let us walk beside you, Cornerstone families. These sweet kids will grow up before we know it- so let's ensure that at the end of this journey, we can look back and know that we gave them the best tools we could in how to follow God. This is not about perfection- it's about intention and direction, one day at a time.
